

The Mid-Atlantic Region's Rail to Truck Solution

... From the Industry Leaders for Safety, Flexibility & Unparalleled Service

SMS Rail Lines and SJ Transportation Co. have formed an alliance to offer the industry a safe and reliable rail to truck trans-loading service. We can identify opportunities to minimize cost and optimize delivery services for rail commodities to your customers.

The investments in infrastructure and technology along with the connections to both railroads - CSXT and NS - provide options to firms looking for strategic regional product distribution.

The SMS Rail Lines/SJ Transportation team is comprised of industry veterans with expertise in Industrial and Chemical trans-loading and transportation.

SMS Rail Lines has provided custom rail service for Southern New Jersey and Eastern Pennsylvania since June 1994. Now serving three branch lines in the Delaware Valley Region, the SMS Rail Lines System serves all our customers with the highest quality service offered by any Class 1 or short line railroad in the region.

Since 1971, SJ Transportation Co., Inc. has developed a thorough, methodical approach to the business of transporting hazardous/ industrial waste and hazmat products. With a fully dedicated fleet of diverse drivers, trucks, pumps and trailers, we have the right equipment to get the job done throughout North America.
